

**Role: Coppersmith Tradesperson**  
**Function: Engineering - Production**

McMillan specialise in traditional handcrafted Scottish Copper pot stills and Distillation columns for the Whisky and Distilled Spirits industry.

At McMillan, an integral part of Briggs Group, the Production function is responsible for turning client's bespoke engineering requirements into finished products through the design, planning, manufacture, and quality governance of these products. Thus, supporting the on-time delivery to both internal and external clients.

**The Role:**

The Coppersmith Tradesman is responsible for the handcrafting and forming of the distillation equipment to ensure that we meet the production schedule to deliver on our promises.

**What the role is responsible for:**

- Fabrication of Stills and Distillery Equipment
- Sheet metal work fabrication (i.e. marking out, cutting, rolling, folding/press brake, sheet metal and plate bending rolls, drilling)
- TIG / MMA welding of Stainless steel / Mild Steel / Copper
- Reading and fabricating to engineering drawings
- Working safely and adhering to company policies
- Working productively to required timeframes and deadlines.
- Site work as and when needed (driving license required)

**Desired Knowledge and Experience:**

- Minimum of 3 Scottish National 4 Qualifications or equivalent (to include Math's & English)
- Experience and competence of Sheet metal work fabrication
- Good written and spoken English
- Clean UK driving license
- 'First Aid at work' Certified (in date) advantageous

**what we are looking for in you:**

- Willingness to work hard in a physically demanding environment
- Be trustworthy & responsible
- Ability to adapt to new processes and practices
- Display innovate thinking and sharing of ideas for continuous improvements.
- Ability to work independently and as part of a team.
- Communicate clearly and effectively & able to follow instructions
- Be Flexible to the needs of the business
- Conduct themselves in a professional & punctual manner
